Help BUILD inclusive PSE for Georgia

We’re bringing inclusive post-secondary education (PSE) options to Georgia, and we need YOUR HELP!!!

More and more students with intellectual and developmental disabilities are finding success on college campuses.

You can help BUILD inclusive PSE in Georgia and this is how!

- Learn about inclusive PSE through the GAIPSEC and ThinkCollege!
- Join our mailing list (email smiller65@gsu.edu to have your name added)
- Share information with parents, students and educators
- Contact your legislator and ask them to support the call for funding
- Make contact with anyone you have a connection with a college or university and share with them about inclusive PSE opportunities.
